MGPS Experience

Brian has had a varied career over the last 20 years with BOC Gases, ranging from operational territory management roles, to R&D and training roles

Progressing into customer development and technical sales, this role focused on customer installations, with a high degree of contact with contractors and customers, involving product and installation technique training, with strong commissioning and handover skills

Further career development lead to more product development and innovation, with new products designed, tested and brought to market. For 9 years Brian was part of BOC Healthcare Engineering services team, and personally delivered over 100 Edexcel accredited training courses, including

- AP MGPS
- CP MGPS
- QC MGPS

For 5 years Brian was also a Consultant Trainer at Eastwood Park, both UK and Overseas

In addition to training, Brian is also skilled at Compliance auditing and Risk Assessment in accordance with NHS HTM 02-01 :2006.

In July 2017 Brian left BOC Healthcare to join Medical Engineering Systems as an Associate Medical Gas Consultant, with an aim to develop MGPS training further.

Core Skills

- Compliance Auditing- Comprehensive audit of existing medical gas pipeline and distribution systems,
- Medical Gas Systems- Risk Management
- Engineering Training- Extensive training experience both UK and Overseas
- Medical Gas safety training
- Policy and operational procedure preparation
- MGPS testing and commissioning
- MGPS design verification
